Contingency	<i>(Please provide details which will assist emergency services responding to residents)</i>
POSSIBLE IMPACT	
Name of road(s) on which event is to be held along with a detailed, marked up location plan	<i>Organisers must identify the exact roads/streets affected including the start and end locations and provide a marked up plan or drawing to indicate same. The plan must show the length of road to be prohibited or restricted in use (indicated in red), and the proposed diversion route (indicated in green). This plan must be clear and indicate road numbers. Promoters should identify, on the plan, any restrictions or obstacles on the diversion route that may affect traffic, e.g. low bridges, narrow sections of road, tunnels, fords, one way streets and movement restrictions, roads with weight, height or width restrictions or restrictions on vehicle class. A similar or higher class of road to the one being closed should be used as the diversion route, taking into consideration that heavy goods vehicles and buses may have to use them. On narrow rural roads consideration may need to be given to providing a separate diversion route for each direction. It may also be necessary to have a separate diversion for HGVs and cars, because of the nature of the roads in the area.</i>
